

Electronic Arts

Archon II: ADEPT

IMPORTANT INFORMATION

1. Against the computer, your Wraiths will be visible. (Since the computer actually "knows" where they are, it seems only fair that you know as well.)
2. To give a beginner the best possible chance against a skilled player (computer or human), follow the instructions on first page of the Command Summary card to choose the Beginner level for the least skilled player and the Advanced level for the most skilled one.
3. The Command Summary card instructions referring to XL owners apply only to owners of Atari computers.
